

The WIPO Center and SIMC present:

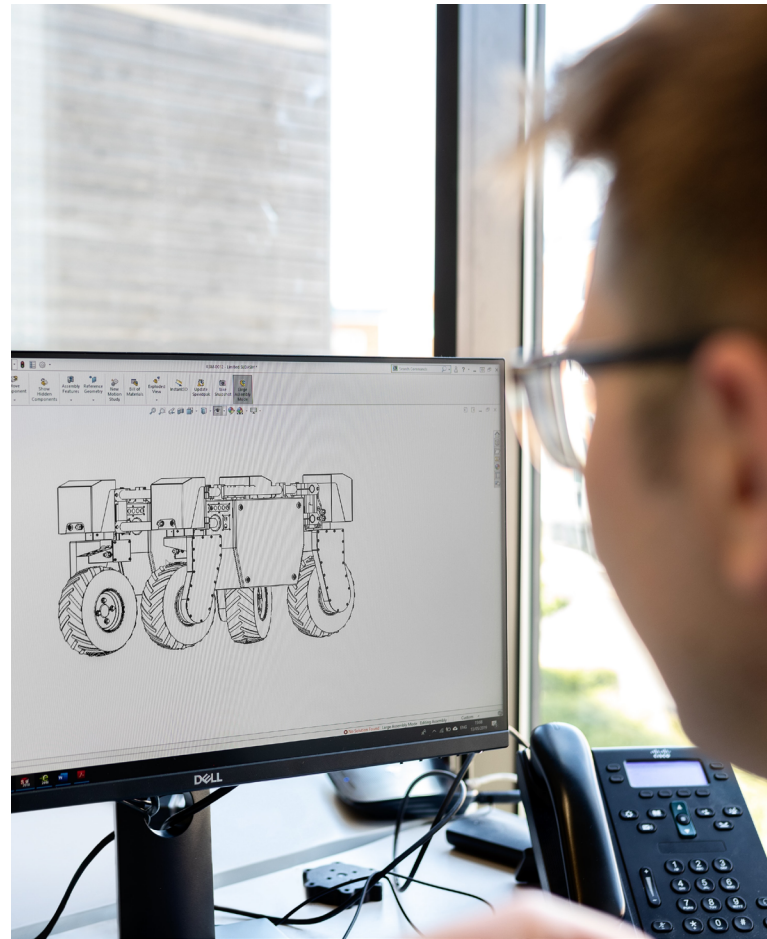

# Recent Developments in Mediation for IP and Technology Disputes

27 Oct 2020, Tuesday  
17:00 - 18:30H SGT /  
10:00 - 11:30H Geneva

Join us for a discussion on the recent developments, initiatives and trends in intellectual property (IP) and technology, media and telecoms (TMT) dispute settlement.

Speakers will outline the landscape for IP and TMT disputes and how companies may take advantage of mediation to fast-track resolution. The panel discussion will also cover challenges and opportunities in IP and TMT dispute resolution, and the Singapore Convention on Mediation.

Organized by WIPO Arbitration and Mediation Center (WIPO Center) and the Singapore International Mediation Centre (SIMC), the event also marks the beginning of a partnership between the WIPO Center and SIMC, combining the synergies of both world-class institutions in promoting mediation. We are pleased to officially recognize this partnership during the webinar.
